SUMMARY

Mechanical engineer with a minor in business. Experienced in polymer-based additive manufacturing technologies and polymer processing. Highly skilled in thermal analysis and mechanical testing of polymers, composite theory, and failure criteria. Versatile communicator fluent in three languages.

EDUCATION

- **University of Wisconsin-Madison** - *Madison, WI, U.S.A.*
 - **PhD:** Mechanical Engineering — 2018 - *present* (Expected August 2021)
 - **MSc:** Mechanical Engineering — 2016 - 2018.
- **Universidad Simón Bolívar** - *Caracas, Venezuela*
 - **BSc:** Materials Engineering — 2009 - 2016.

PROFESSIONAL EXPERIENCE

Research Assistant Polymer Engineering Center, UW-Madison **August 2016 - Present**

- Constructed a failure surface for FFF parts using careful design of experiments based on statistics and mechanics of materials.
- Designed and produced customized 3D printed coupons with unusual extrudate orientations using a 6-axis robotic printer.
- Extruded a recycled PET filament with tight dimensional tolerances to achieve high precision volumetric output during 3D printing.
- Offered expertise in the design of topological crystal insulators to be manufactured through Additive Manufacturing technologies.
- Routinely offered process optimization guidelines that stemmed from thermal analysis of polymers.

Teaching Assistant Mech. Eng. Department, UW-Madison **August 2017 - December 2020**

Responsible for the instruction and grading of 'ME370 - Energy Systems Lab', 'ME514 - Additive Manufacturing', and 'ME418 - Engineering Design with Polymers', all offered by the Mechanical Engineering Department. Consistently received high ratings from students.

SKILLS

Polymer processing techniques: Extrusion, Injection Molding, FDM/FFF, SLS, DLS

Analysis techniques: TGA, DSC, LFA, DMA, FTIR, Mechanical Testing, μ CT

Programming languages: MATLAB, Python, R, RAPID, G-code

Engineering software: Solidworks, EES, Origin, Moldflow, ANSYS

Other software: Microsoft Office Suite, Adobe Animate

Languages: English, Spanish, Portuguese

OTHER EXPERIENCE

Vice President Society of Plastic Engineers - Madison Chapter **August 2018 - May 2020**

Coordinated industry visits and outreach activities aimed at increasing the interest of engineering students in the field of polymer processing. Highlights include visits to the 3M campus in the Twin Cities - MN, and to the Trek facilities in Waterloo - WI.

TECHNICAL PRESENTATIONS

1. *A Novel Failure Criteria Applied for Fused Filament Fabrication Parts*. AMUG - Chicago, IL - 2019.
2. *A Tensor Based Failure Criterion for FFF Manufactured Parts*. RAPID - Fort Worth, TX - 2018.
3. *Towards a Robust Production of FFF End-User Parts with Improved Tensile Properties*. SFF - Austin, TX - 2017.
