## SUMMARY

---

Mechanical engineer with a minor in business. Experienced in polymer-based additive manufacturing technologies and polymer processing. Highly skilled in thermal analysis and mechanical testing of polymers, as well as composite theory and failure criteria. Versatile communicator.

## EDUCATION

---

- **University of Wisconsin-Madison** - *Madison, WI, U.S.A.*
  - **PhD:** Mechanical Engineering — 2018 - *present* (Expected August 2021)
  - **MSc:** Mechanical Engineering — 2016 - 2018.
- **Universidad Simón Bolívar** - *Caracas, Venezuela*
  - **BSc:** Materials Engineering — 2009 - 2016.

## ENGINEERING EXPERIENCE

---

**PhD Candidate** under Prof. Tim Osswald, UW-Madison **August 2016 - Present**

- Designed and manufactured a low-cost, thermoformed reusable N9X mask during the COVID19 pandemic.
- Developed a failure surface for FFF parts using careful design of experiments based on statistics and mechanics of materials.
- Developed and produced 3D printed coupons with unusual bead orientations using a customized 6-axis robotic printer.
- Extruded an ABS FFF filament with tight dimensional tolerances to achieve high precision volumetric output during 3D printing.
- Collaborated with a company to develop a 3D printer with in-line sensors that capture processing parameter data in real time.
- Supervised the extrusion of Polyethylene Terephthalate (PET) filament produced with discarded bottles as the parent material.

## SKILLS

---

**Polymer processing techniques:** Extrusion, Injection Molding, FDM/FFF, SLS, DLS

**Analysis techniques:** TGA, DSC, LFA, DMA, Destructive Mechanical Testing,  $\mu$ CT

**Programming languages:** MATLAB, Python, R, RAPID, G-code

**Engineering software:** Solidworks, EES, Origin, Jupyter Notebooks

**Other software:** Microsoft Office Suite, Adobe Animate

**Languages:** English, Spanish, Portuguese

## OTHER EXPERIENCE

---

**Teaching Assistant** University of Wisconsin-Madison **August 2017 - Present**

Responsible for the instruction and grading of 'ME370 - Energy Systems Lab', 'ME514 - Additive Manufacturing', and 'ME418 - Engineering Design with Polymers', all offered by the Mechanical Engineering Department. Consistently received high ratings from students.

**Vice President** Society of Plastic Engineers - Madison Chapter **August 2018- May 2020**

Coordinated industry visits and outreach activities aimed at increasing the interest of engineering students in the field of polymer processing.

## TECHNICAL PRESENTATIONS

---

AMUG	Chicago, IL	2019
• <i>A Novel Failure Criterion Applied for Fused Filament Fabrication Parts.</i>		
RAPID	Fort Worth, TX	2018
• <i>A Tensor Based Failure Criterion for FFF Manufactured Parts.</i>		
SFF	Austin, TX	2017
• <i>Towards a Robust Production of FFF End-User Parts with Improved Tensile Properties.</i>

## ADDITIONAL INFORMATION

---

- Exchange student through the Rotary Youth Exchange Program (August 2008 to June 2009).
- Venezuelan and Italian citizenship.
- Holder of Brazilian permanent resident visa.
